

Quarterly Business Review

Northwind Analytics | Fiscal Year 2026, Q3

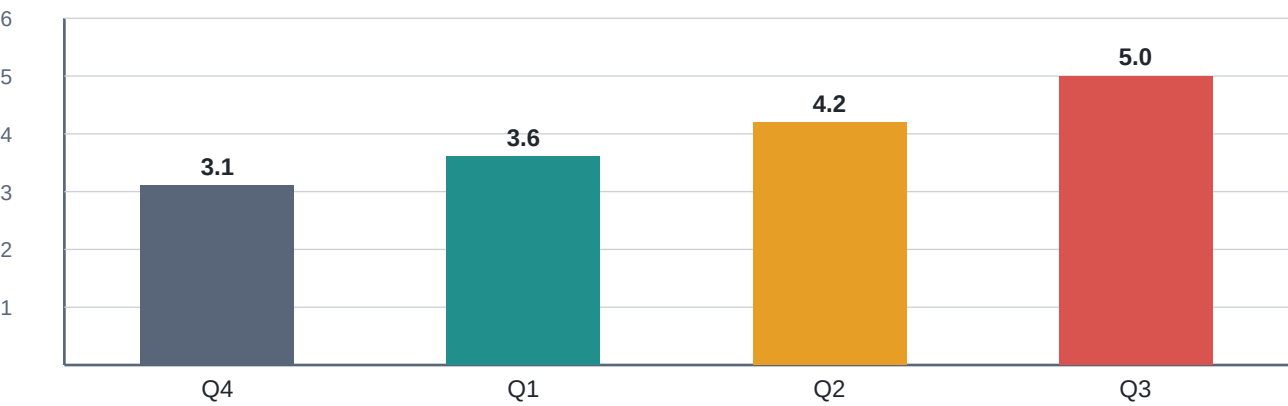

Executive summary

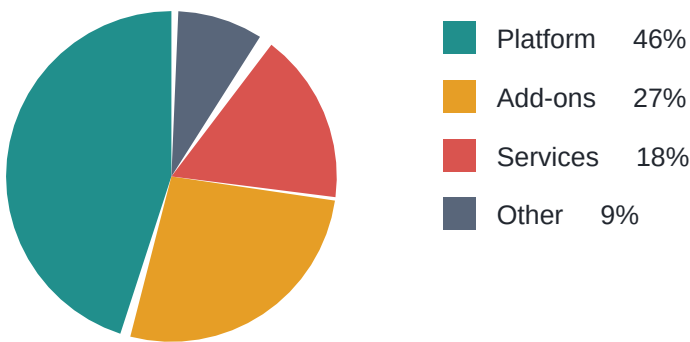

Northwind Analytics compiles this quarterly review to give the leadership team a single, shareable snapshot of how the business is tracking against plan. The figures below are illustrative sample data, included so the document has the same shape as a real report: headings, flowing paragraphs, charts and a data table.

Revenue grew for the fourth consecutive quarter, driven by strong renewals in the enterprise segment and the launch of the self-serve tier. Support costs held flat even as the customer base expanded, which pushed gross margin up by just over three points. The remainder of this document breaks those movements down by region and by product line.

Revenue by quarter (\$M)

Revenue mix by product line

Regional detail

The table below reconciles reported revenue against plan for each region. Positive variance is shown where a region finished ahead of its target for the quarter.

Region	Actual	Plan	Variance
North America	\$2.4M	\$2.2M	+9%
Europe	\$1.3M	\$1.3M	0%
Asia Pacific	\$0.9M	\$0.7M	+29%
Latin America	\$0.4M	\$0.5M	-20%

Key highlights

- Asia Pacific outperformed plan by 29%, the largest positive variance this quarter.
- Latin America finished behind plan; a recovery program starts next quarter.
- Enterprise renewals reached 94%, up from 89% a year ago.
- Self-serve signups contributed \$0.3M of incremental platform revenue.
